OUR VALUES

Our philosophy is centred on the enormity of human potential that can be harnessed by the right technique to offer solutions for individual and collective social change, development and transformation.

Our clients' project challenges are seen as an opportunity for change and transformation to enhance the dividends in their projects, and programmes.

We aim to offer the most comprehensive innovative solutions; to achieve our objectives through research and publications; and also through enhancing the skills and qualities of staff.

We value indigenous & knowledge Systems as an essential basis for development and growth in Africa.

"Knowing is not enough; we must apply. Willing is not enough we must do." Goethe

**Business & Sustainable Development
Services Provider**

THEMbosdev is a new multi-disciplinary development & situation measurement consulting organisation that provides community and leadership training and health and wellness services with experienced professional personnel and global specialist network-links. We administer sustainable scientific & indigenous-based contextualized solutions to development challenges in Sub-Saharan Africa

VISION

We aim at an empowered and quality leadership for African societies, communities, and households

MISSION

To provide training that instils confidence for public and private sector productivity; to promote local economic growth by strengthening leadership and building communities capacities; to promote health and educate for a healthy and productive society.

OUR SERVICES & ACTIVITIES

1. We provide policy research, situation surveys and measurement services and trainings in using Project Planning using Logic Model & Comprehensive Community Initiative (CCI)
2. We provide consultation and services on community initiatives on sustainable development programmes and projects, by providing requisite and complementary training in project planning, monitoring and assessment for local leaders and cooperatives, social groups & associations.
3. We provide Entrepreneurship training in SME and Financial Management.
4. Agricultural and food security education to rural and peri-urban communities.
5. Peacebuilding, peace-education, conflict early-warning system development, & diversity-tolerance workshops.
6. We provide health and wellness services to public and private organizations and communities.
7. Internship avenue for unemployed graduates, continuing tertiary students for entrepreneurship training towards self-employment and Skills

Development Trainings (SDT) for unemployed school leavers.

WHY PARTNER WITH US?

We focus on timely delivery of service, or we let you know early.

We apply a reconstructive, rehabilitative, strategic-tasking and problem-stressing approach (R²STPSA).

We offer varied approaches to address problems creatively in order to achieve sustainable growth and productivity in community development projects.

We offer services and interventions that facilitate problem-solving and transformation in both government, the private sector, and community leadership.

We offer terms for franchising outside South Africa:
